07 Product Design

Stelair

STELAIR is an air filtration device for babies to control their environment and protect them from unforeseen airborne allergens that can trigger asthma. It uses HEPA Technology and Activated Carbon Technology for its filtration and Peltier's Thermoelectric Cooler for its air cooling. It is used by infants to help them adapt slowly to their environment as they build their immune systems.

Year
2017

STEP 1:

MOUNT THE DEVICE ONTO THE CRIB
OR THE BED

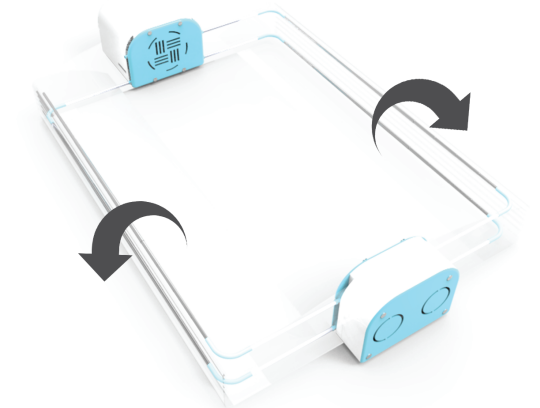

STEP 2:

RETRACT THE SPINE OUTWARDS

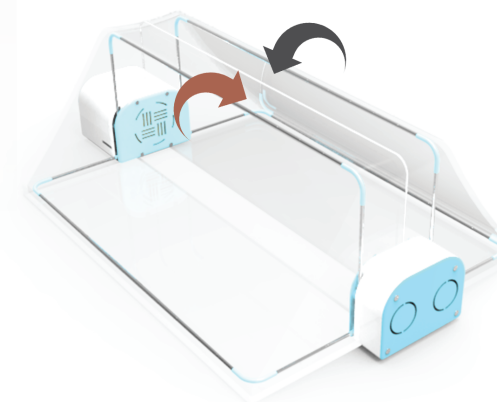

STEP 3:

TURN ON THE DEVICE AND LET
THE INSIDE COOL FOR A FEW MINUTES

STEP 4:

UNZIP THE COVER AND GENTLY LAY THE
